

BUSINESS RETENTION & EXPANSION

Supporting existing businesses is *key* to building a resilient, competitive local economy. **Business Retention and Expansion (BR&E)** is essential for small to medium-sized communities because it *strengthens* your **economic foundation** from *within*. Becker Professional Services partners with local governments to develop and implement BR&E programs that **identify business** needs, build trust, and drive local growth.

Program Component	What We Do	Why It Matters
 <p>Local Business Engagement</p>	<p>We partner with communities to strengthen the local economy by identifying and supporting the businesses that already call your area home.</p>	<p>Communities thrive when local businesses are heard and supported. We focus on those already investing in your community's success.</p>
 <p>Business Interviews & Insights</p>	<p>Through structured interviews and surveys, we gather meaningful, confidential insights from business owners and leaders. These guide our strategies, resources, and policy recommendations.</p>	<p>Real-time data from local employers ensures your economic development strategies reflect actual business needs, not assumptions.</p>
 <p>Follow-Up & Reporting</p>	<p>We maintain contact with participating businesses, track challenges and opportunities, and deliver concise reports and recommendations to support your community's decision-making.</p>	<p>BR&E is not a one-time initiative. Ongoing engagement helps you spot trends early and act decisively to retain and grow your local economy.</p>

Partner with us to build a *stronger*, more *sustainable* community!
